Summary

I am a passionate Frontend Developer with hands-on experience in building responsive and user-friendly web applications using React, Node.js, Vite, Tailwind CSS, and Git/GitHub. I enjoy transforming complex problems into elegant, efficient, and maintainable solutions. My projects focus on delivering clean, performant, and visually appealing interfaces, ensuring seamless user experiences across devices and browsers. I thrive in remote and collaborative environments, always eager to learn new technologies and contribute effectively to team goals. When I'm not coding, I enjoy exploring the latest web development trends, optimizing workflows, and improving my design sense to create polished digital experiences.
